<BREAKING NEWS: An Unusual Rescue Effort> A [ⓐ **missing** / ⓑ **present**] hiker named Rene Compean was found [ⓐ **safe** / ⓑ **endangered**] on Tuesday by a rescue team in Angeles National Forest. It turns out that a photo played a [ⓐ **key** / ⓑ **trivial**] role in saving his life. Let's go over to Marissa Reynolds for more details on this story. Thank you, Thomas. I'm standing here at the [ⓐ **exit** / ⓑ **entrance**] of Angeles National Forest. As you just heard, Rene Compean was recently [ⓐ **abandoned** / ⓑ **rescued**] from this forest. Compean, an [ⓐ **experienced** / ⓑ **novice**] hiker who knew the area [ⓐ **well** / ⓑ **poorly**], went on a hike [ⓐ **alone** / ⓑ **accompanied**] on April 12. However, a recent forest fire had [ⓐ **constructed** / ⓑ **destroyed**] some signs, which caused him to take a [ⓐ **wrong** / ⓑ **correct**] turn and get [ⓐ **found** / ⓑ **lost**]. He tried shouting for help and even wrote SOS on the ground in case a plane or helicopter passed by. He had planned to hike for only about two hours, but [ⓐ **dawn** / ⓑ **night**] was coming. It started getting very windy and the temperature was [ⓐ **dropping** / ⓑ **rising**] [ⓐ **gradually** / ⓑ **quickly**].

02

Compean was [ⓐ **shallow** / ⓑ **deep**] in the forest, so his cell phone couldn't get a signal. To make matters [ⓐ **worse** / ⓑ **better**], its battery was nearly [ⓐ **dead** / ⓑ **alive**]. He climbed up to a [ⓐ **higher** / ⓑ **lower**] spot and found a [ⓐ **strong** / ⓑ **weak**] signal. He used the [ⓐ **last** / ⓑ **first**] of his battery to send a text message to his friend. In the message, he said that he was [ⓐ **found** / ⓑ **lost**] and needed help. He also sent a picture to show his surroundings. Compean's friend shared the message and the picture with the [ⓐ **distant** / ⓑ **local**] police. When the local police were informed of the [ⓐ **missing** / ⓑ **present**] hiker, they immediately sent a rescue team. Despite searching through the night, they still didn't have any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees. His legs were covered in [ⓐ **white** / ⓑ **black**] ash from the [ⓐ **ancient** / ⓑ **recent**] forest fires. However, the picture didn't help the police much because the quality was [ⓐ **excellent** / ⓑ **poor**] due to the weak signal, and his location settings were turned [ⓐ **off** / ⓑ **on**].

03

As Compean had already spent one night in [ⓐ **difficult** / ⓑ **effortless**] conditions, the police worried about his spending a [ⓐ **second** / ⓑ **first**] night. So they decided to use social media to find out if anyone could find clues in the picture. They [ⓐ **concealed** / ⓑ **posted**] the picture and asked if anyone [ⓐ **recognized** / ⓑ **ignored**] the scenery. The picture [ⓐ **shared** / ⓑ **withheld**] by the police was seen by a Californian named Ben Kuo. One of his hobbies is examining satellite images to track forest fires and informing people of [ⓐ **obsolete** / ⓑ **potential**] dangers. He also enjoys determining where pictures were taken and where movies were filmed. When he saw the picture of Compean, he was [ⓐ **gradually** / ⓑ **immediately**] interested. When Kuo saw the [ⓐ **white** / ⓑ **black**] ash on Compean's legs, it reminded him of a [ⓐ **ancient** / ⓑ **recent**] forest fire. This helped him to infer Compean's [ⓐ **approximate** / ⓑ **precise**] location. Kuo was very [ⓐ **unfamiliar** / ⓑ **familiar**] with the area because he had tracked the fire before and had checked the features of the area in satellite images. From the plants and trees in Compean's picture, Kuo guessed that it must be the [ⓐ **south** / ⓑ **north**] side of the mountain. The north side does not have any [ⓐ **barren** / ⓑ **green**] valleys like those in the picture.

04

As a final step, Kuo compared the view in Compean's picture with more satellite images. Finally, he found a match and provided the police with Compean's [ⓐ **definite** / ⓑ **probable**] location. The police sent a rescue helicopter to the location and found Compean [ⓐ **less** / ⓑ **more**] than a mile away from the area indicated by Kuo. Thanks to Kuo's [ⓐ **conventional** / ⓑ **unusual**] skills, Compean was rescued [ⓐ **injured** / ⓑ **unharmed**]. He later thanked Kuo on a video call. The [ⓐ **distant** / ⓑ **local**] police are now reminding hikers who hike [ⓐ **together** / ⓑ **alone**] to inform others of their [ⓐ **spontaneous** / ⓑ **planned**] route and to always bring a [ⓐ **digital** / ⓑ **paper**] map. This is Marissa Reynolds from LA. Now [ⓐ **back** / ⓑ **forward**] to the studio.

<BREAKING NEWS: An Unusual Rescue Effort> A [ⓐ **lost** / ⓑ **found**] hiker named Rene Compean was found [ⓐ **secure** / ⓑ **endangered**] on Tuesday by a rescue team in Angeles National Forest. It turns out that a photo played a [ⓐ **crucial** / ⓑ **trivial**] role in saving his life. Let's go over to Marissa Reynolds for more details on this story. Thank you, Thomas. I'm standing here at the [ⓐ **gateway** / ⓑ **exit**] of Angeles National Forest. As you just heard, Rene Compean was recently [ⓐ **abandoned** / ⓑ **saved**] from this forest. Compean, an experienced hiker who knew the area [ⓐ **poorly** / ⓑ **thoroughly**], went on a hike [ⓐ **solo** / ⓑ **accompanied**] on April 12. However, a recent forest fire had [ⓐ **constructed** / ⓑ **demolished**] some signs, which caused him to take a [ⓐ **incorrect** / ⓑ **correct**] turn and get [ⓐ **disoriented** / ⓑ **oriented**]. He tried shouting for help and even wrote SOS on the ground in case a plane or helicopter passed by. He had [ⓐ **improvised** / ⓑ **intended**] to hike for only about two hours, but night was coming. It started getting very [ⓐ **blustery** / ⓑ **calm**] and the temperature was [ⓐ **rising** / ⓑ **falling**] quickly.

02

Compean was [ⓐ **far** / ⓑ **shallow**] in the forest, so his cell phone couldn't get a signal. To make matters [ⓐ **poorer** / ⓑ **better**], its battery was nearly [ⓐ **drained** / ⓑ **alive**]. He [ⓐ **ascended** / ⓑ **descended**] up to a [ⓐ **elevated** / ⓑ **lower**] spot and found a [ⓐ **faint** / ⓑ **strong**] signal. He used the last of his battery to [ⓐ **transmit** / ⓑ **receive**] a text message to his friend. In the message, he said that he was [ⓐ **missing** / ⓑ **found**] and needed help. He also sent a picture to show his surroundings. Compean's friend [ⓐ **withheld** / ⓑ **forwarded**] the message and the picture with the [ⓐ **regional** / ⓑ **distant**] police. When the local police were informed of the missing hiker, they immediately sent a [ⓐ **abandonment** / ⓑ **recovery**] team. Despite searching through the night, they still didn't have any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and [ⓐ **barren** / ⓑ **verdant**] trees. His legs were [ⓐ **coated** / ⓑ **exposed**] in black ash from the [ⓐ **ancient** / ⓑ **latest**] forest fires. However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

03

As Compean had already spent one night in [ⓐ **challenging** / ⓑ **easy**] conditions, the police [ⓐ **feared** / ⓑ **celebrated**] about his spending a second night. So they decided to use social media to [ⓐ **discover** / ⓑ **hide**] out if anyone could find [ⓐ **deceptions** / ⓑ **hints**] in the picture. They posted the picture and asked if anyone [ⓐ **identified** / ⓑ **ignored**] the scenery. The picture [ⓐ **withheld** / ⓑ **distributed**] by the police was seen by a Californian named Ben Kuo. One of his hobbies is [ⓐ **analyzing** / ⓑ **neglecting**] satellite images to track forest fires and informing people of [ⓐ **impossible** / ⓑ **possible**] dangers. He also enjoys determining where pictures were taken and where movies were filmed. When he saw the picture of Compean, he was immediately [ⓐ **intrigued** / ⓑ **bored**]. When Kuo saw the black ash on Compean's legs, it [ⓐ **recalled** / ⓑ **erased**] him of a recent forest fire. This helped him to [ⓐ **deduce** / ⓑ **confuse**] Compean's [ⓐ **rough** / ⓑ **precise**] location. Kuo was very [ⓐ **unfamiliar** / ⓑ **acquainted**] with the area because he had tracked the fire before and had checked the features of the area in satellite images. From the plants and trees in Compean's picture, Kuo [ⓐ **doubted** / ⓑ **estimated**] that it must be the south side of the mountain. The north side does not have any [ⓐ **lush** / ⓑ **barren**] valleys like those in the picture.

04

As a final step, Kuo [ⓐ **ignored** / ⓑ **contrasted**] the view in Compean's picture with more satellite images. Finally, he found a [ⓐ **correspondence** / ⓑ **mismatch**] and provided the police with Compean's [ⓐ **impossible** / ⓑ **likely**] location. The police sent a [ⓐ **recovery** / ⓑ **abandonment**] helicopter to the location and found Compean less than a mile away from the area [ⓐ **concealed** / ⓑ **specified**] by Kuo. Thanks to Kuo's [ⓐ **ordinary** / ⓑ **extraordinary**] skills, Compean was [ⓐ **abandoned** / ⓑ **saved**] unharmed. He later [ⓐ **acknowledged** / ⓑ **blamed**] Kuo on a video call. The [ⓐ **regional** / ⓑ **distant**] police are now reminding hikers who hike [ⓐ **together** / ⓑ **solo**] to [ⓐ **conceal** / ⓑ **notify**] others of their planned route and to always bring a paper map. This is Marissa Reynolds from LA. Now back to the studio.

BREAKING NEWS: An Unusual Rescue Effort A missing hiker named Rene Compean was found safe on Tuesday by a rescue team in Angeles National Forest. It turns out that a photo played a key role in saving his life. Let's go over to Marissa Reynolds for more details on this story. Thank you, Thomas. I'm standing here at the entrance of Angeles National Forest. As you just heard, Rene Compean was recently rescued from this forest. Compean, an experienced hiker who knew the area well, went on a hike alone on April 12. However, a recent forest fire had destroyed some signs, which caused him to take a wrong turn and get lost. He tried shouting for help and even wrote SOS on the ground in case a plane or helicopter passed by. He had planned to hike for only about two hours, but night was coming. It started getting very windy and the temperature was dropping quickly.

01 | What caused Rene Compean to get lost during his hike?

① He was an inexperienced hiker who didn't know the area
② A recent forest fire had destroyed some trail signs
③ Bad weather conditions made visibility poor
④ He deliberately chose an unfamiliar hiking route

02 | What actions did Compean take to try to get help while he was lost?

① He used his cell phone to call for rescue services
② He built a fire to create smoke signals
③ He shouted for help and wrote SOS on the ground
④ He climbed to higher ground to get better reception

03 | What weather conditions made Compean's situation more dangerous as night approached?

① Heavy rain and flooding
② Strong winds and dropping temperatures
③ Dense fog and poor visibility
④ Snow and freezing conditions

02

Compean was deep in the forest, so his cell phone couldn't get a signal. To make matters worse, its battery was nearly dead. He climbed up to a higher spot and found a weak signal. He used the last of his battery to send a text message to his friend. In the message, he said that he was lost and needed help. He also sent a picture to show his surroundings. Compean's friend shared the message and the picture with the local police. When the local police were informed of the missing hiker, they immediately sent a rescue team. Despite searching through the night, they still didn't have any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees. His legs were covered in black ash from the recent forest fires. However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

01 | What was the main reason Compean's cell phone couldn't get a signal initially?

① The battery was nearly dead
② He was deep in the forest
③ His location settings were turned off
④ The recent forest fires interfered with reception

02 | What information did Compean include in his text message to his friend?

① Only that he was lost and needed help
② His exact GPS coordinates
③ That he was lost, needed help, and included a picture of his surroundings
④ A detailed description of his hiking route

03 | Why wasn't the picture Compean sent very helpful to the police rescue team?

① The picture only showed his legs hanging over a canyon edge
② The picture quality was poor due to weak signal and his location settings were off
③ The black ash on his legs obscured important details
④ The rescue team couldn't access the picture file

03

As Compean had already spent one night in difficult conditions, the police worried about his spending a second night. So they decided to use social media to find out if anyone could find clues in the picture. They posted the picture and asked if anyone recognized the scenery. The picture shared by the police was seen by a Californian named Ben Kuo. One of his hobbies is examining satellite images to track forest fires and informing people of potential dangers. He also enjoys determining where pictures were taken and where movies were filmed. When he saw the picture of Compean, he was immediately interested. When Kuo saw the black ash on Compean's legs, it reminded him of a recent forest fire. This helped him to infer Compean's approximate location. Kuo was very familiar with the area because he had tracked the fire before and had checked the features of the area in satellite images. From the plants and trees in Compean's picture, Kuo guessed that it must be the south side of the mountain. The north side does not have any green valleys like those in the picture.

01 | Why did the police decide to use social media to help find Compean?

① They had no other resources available to search for him
② They were concerned about him spending another night in harsh conditions
③ Social media was their standard procedure for all missing person cases
④ They wanted to involve the local community in the search effort

02 | What was Ben Kuo's primary hobby that made him qualified to help in this situation?

① Tracking missing persons through social media
② Analyzing satellite images to monitor forest fires and identify locations
③ Volunteering with local police departments
④ Hiking and exploring mountain areas

03 | What specific detail in Compean's picture helped Kuo determine the approximate location?

① The type of plants and trees visible in the background
② The black ash on Compean's legs that indicated a recent fire
③ The mountain peaks visible in the distance
④ The time of day shown by the lighting in the photo

04 | How did Kuo determine that Compean was on the south side of the mountain?

① The black ash was only present on the south side after the fire
② The green valleys visible in the picture only exist on the south side
③ The satellite images showed Compean's exact location on the south side
④ The police had already narrowed down the search to that area

04

As a final step, Kuo compared the view in Compean's picture with more satellite images. Finally, he found a match and provided the police with Compean's probable location. The police sent a rescue helicopter to the location and found Compean less than a mile away from the area indicated by Kuo. Thanks to Kuo's unusual skills, Compean was rescued unharmed. He later thanked Kuo on a video call. The local police are now reminding hikers who hike alone to inform others of their planned route and to always bring a paper map. This is Marissa Reynolds from LA. Now back to the studio.

01 | How did Kuo ultimately help locate Compean?

① He used GPS tracking technology to pinpoint the exact location
② He compared the view in Compean's picture with satellite images to find a match
③ He analyzed weather patterns to determine the hiking route
④ He contacted other hikers who had seen Compean on the trail

02 | What safety advice are the local police now giving to solo hikers?

① Always hike with a partner and carry emergency supplies
② Register with park services and carry a GPS device
③ Inform others of their planned route and always bring a paper map
④ Stay on marked trails and check weather conditions before hiking

<BREAKING NEWS: An Unusual Rescue Effort>

(A) However, a recent forest fire had destroyed some signs, which caused him to take a wrong turn and get lost. He tried shouting for help and even wrote SOS on the ground in case a plane or helicopter passed by. He had planned to hike for only about two hours, but night was coming. It started getting very windy and the temperature was dropping quickly.

(B) Thank you, Thomas. I'm standing here at the entrance of Angeles National Forest. As you just heard, Rene Compean was recently rescued from this forest. Compean, an experienced hiker who knew the area well, went on a hike alone on April 12.

(C) A missing hiker named Rene Compean was found safe on Tuesday by a rescue team in Angeles National Forest. It turns out that a photo played a key role in saving his life. Let's go over to Marissa Reynolds for more details on this story.

02

(A) Despite searching through the night, they still didn't have any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees.

(B) When the local police were informed of the missing hiker, they immediately sent a rescue team.

(C) Compean was deep in the forest, so his cell phone couldn't get a signal.

(D) He used the last of his battery to send a text message to his friend.

(E) In the message, he said that he was lost and needed help.

(F) He climbed up to a higher spot and found a weak signal.

(G) To make matters worse, its battery was nearly dead.

(H) Compean's friend shared the message and the picture with the local police.

(I) He also sent a picture to show his surroundings.

(J) His legs were covered in black ash from the recent forest fires. However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

➡ _____

☑ 아래 주어진 문장이 들어갈 위치로 알맞은 곳을 고르시오.

In the message, he said that he was lost and needed help.

Compean was deep in the forest, so his cell phone couldn't get a signal. To make matters worse, its battery was nearly dead. He climbed up to a higher spot and found a weak signal. (①) He used the last of his battery to send a text message to his friend. (②) He also sent a picture to show his surroundings. (③) Compean's friend shared the message and the picture with the local police. When the local police were informed of the missing hiker, they immediately sent a rescue team. (④) Despite searching through the night, they still didn't have any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees. (⑤) His legs were covered in black ash from the recent forest fires. However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

03

(A) They posted the picture and asked if anyone recognized the scenery.

(B) The picture shared by the police was seen by a Californian named Ben Kuo.

(C) When Kuo saw the black ash on Compean's legs, it reminded him of a recent forest fire.

(D) As Compean had already spent one night in difficult conditions, the police worried about his spending a second night.

(E) From the plants and trees in Compean's picture, Kuo guessed that it must be the south side of the mountain. The north side does not have any green valleys like those in the picture.

(F) One of his hobbies is examining satellite images to track forest fires and informing people of potential dangers.

(G) He also enjoys determining where pictures were taken and where movies were filmed.

(H) This helped him to infer Compean's approximate location. Kuo was very familiar with the area because he had tracked the fire before and had checked the features of the area in satellite images.

(I) When he saw the picture of Compean, he was immediately interested.

(J) So they decided to use social media to find out if anyone could find clues in the picture.

04

(A) Thanks to Kuo's unusual skills, Compean was rescued unharmed.

(B) He later thanked Kuo on a video call.

(C) The local police are now reminding hikers who hike alone to inform others of their planned route and to always bring a paper map.

(D) This is Marissa Reynolds from LA.

(E) As a final step, Kuo compared the view in Compean's picture with more satellite images.

(F) Now back to the studio.

(G) Finally, he found a match and provided the police with Compean's probable location.

(H) The police sent a rescue helicopter to the location and found Compean less than a mile away from the area indicated by Kuo.

01. <BREAKING NEWS: An Unusual Rescue Effort>

<뉴스 속보: 이례적인 구조 노력>

02. A m_____ hiker named Rene Compean was f_____ s_____ on Tuesday by a rescue team in Angeles National Forest.

Rene Compean이라는 실종된 등산객이 화요일 Angeles National Forest(앤젤레스 국유림)에서 안전한 상태로 발견되었습니다.

03. It turns out that a photo played a k_____ role in s_____ his life.

그의 생명을 구하는 데 한 사진이 중요한 역할을 한 것으로 드러났습니다.

04. Let's go over to Marissa Reynolds for m_____ details on this story.

이 사건에 대한 더욱 자세한 내용을 위해 Marissa Reynolds를 연결해 보겠습니다.

05. Thank you, Thomas. I'm standing here at the entrance of Angeles National Forest.

고마워요, Thomas. 저는 여기 Angeles National Forest 입구에 서 있습니다.

06. As you just heard, Rene Compean was recently r_____ from this forest.

여러분이 방금 들으셨듯이, Rene Compean은 최근 이 숲에서 구조되었습니다.

07. Compean, an e_____ hiker who knew the area w_____, went on a hike a_____ on April 12.

Compean은 이 지역을 잘 알던 숙련된 등산객으로, 4월 12일 홀로 등산에 나섰습니다.

08. However, a recent forest fire had d_____ some signs, which c_____ him to take a w_____ t_____ and g_____ l_____.

그러나, 최근의 산불이 몇몇 표지판을 망가뜨렸고, 그것이 그가 길을 잘못 들어 길을 잃게 했습니다.

09. He tried s_____ for h_____ and even w_____ SOS on the ground in case a plane or helicopter passed by.

그는 도움을 청하기 위해 소리를 지르기도 하고 심지어 비행기나 헬리콥터가 지나갈 경우를 대비하여 땅에 SOS를 쓰기도 했습니다.

10. He had planned to hike for only about two hours, but night was c_____.

그는 약 2시간 정도만 등산할 계획이었으나, 밤이 찾아오고 있었습니다.

11. It s_____ getting very w_____ and the temperature was d_____ q_____.

강한 바람이 불기 시작했고 기온은 급격히 떨어지고 있었습니다.

02

12. Compean was d_____ in the forest, so his cell phone c_____ g_____ a signal.

Compean은 숲속 깊은 곳에 있었고, 그래서 그의 휴대폰은 신호를 받지 못했습니다.

13. T_____ m_____ m_____ w_____, its battery was nearly d_____.

설상가상으로, 그것의 배터리는 거의 방전되었습니다.

14. He climbed up to a h_____ spot and found a w_____ signal.

그는 더 높은 곳으로 올라갔고 약한 신호를 찾았습니다.

15. He used the l_____ of his battery to send a text message to his friend.

그는 그의 마지막 (남은) 배터리를 그의 친구에게 문자 메시지를 보내기 위해 사용했습니다.

16. In the message, he said that he was l_____ and n_____ h_____.

메시지에, 그는 그가 길을 잃었으며 도움이 필요하다고 말했습니다.

17. He also sent a picture to s_____ his s_____.

그는 또한 그의 주변 환경을 보여 주기 위해 사진 한 장을 보냈습니다.

18. Compean's friend s_____ the message and the picture with the local police.

Compean의 친구는 그 메시지와 사진을 지역 경찰에게 공유했습니다.

19. When the local police were i_____ of the m_____ hiker, they immediately sent a rescue team.

지역 경찰이 실종된 등산객에 대해 보고받았을 때, 그들은 즉시 구조팀을 보냈습니다.

20. Despite s_____ through the night, they still d_____ h_____ a_____ i_____ where Compean was.

밤샘 수색에도 불구하고, 그들은 여전히 Compean이 어디에 있는지 어떤 짐작도 하지 못했습니다.

21. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees.

사진에서, 그의 다리는 바위와 푸른 나무들이 있는 협곡의 가장자리에 걸쳐 있었습니다.

22. His legs were c_____ in black ash from the recent forest fires.

그의 다리는 최근의 산불로 생긴 검은 재로 덮여 있었습니다.

23. However, the picture didn't help the police m_____ because the quality was p_____ due to the w_____ signal, and his location settings were t_____ o_____.

그러나, 그 사진은 경찰에게 크게 도움이 되지 못했는데 왜냐하면 약한 신호로 인해 화질이 나빴고, 그의 위치 설정도 꺼져 있었기 때문이었습니다.

C2 빈칸 어휘 ① ② ③

Q3

24. As Compean had already spent one night in **d**_____ conditions, the police **w**_____ about his spending a second night.

Compean은 이미 힘든 환경에서 하룻밤을 보냈기 때문에, 경찰은 그가 두 번째 밤을 보낼 것에 대해 걱정했습니다.

25. So they **d**_____ to use **s**_____ **m**_____ to **f**_____ **o**_____ if anyone could find **c**_____ in the picture.

그래서 그들은 누군가 사진 속에서 단서를 찾을 수 있는지 알아보기 위해 소셜 미디어를 사용하기로 결정했습니다.

26. They posted the picture and asked if anyone **r**_____ the scenery.

그들은 그 사진을 게시하고 누군가 그 풍경을 알아차릴 수 있는지 물었습니다.

27. The picture **s**_____ by the police was **s**_____ by a Californian named Ben Kuo.

경찰에 의해 공유된 그 사진은 Ben Kuo라는 이름의 캘리포니아 사람에게 목격되었습니다.

28. One of his hobbies is **e**_____ satellite images to **t**_____ forest fires and **i**_____ people of **p**_____ **d**_____.

그의 취미 중 하나는 산불을 추적하기 위해 위성 이미지를 조사하는 것과 사람들에게 잠재적 위험에 대해 알리는 것입니다.

29. He also enjoys **d**_____ where pictures were taken and where movies were filmed.

그는 또한 어디서 사진이 찍혔는지와 영화가 어디서 촬영되었는지를 알아내는 것을 즐겼습니다.

30. When he saw the picture of Compean, he was immediately **i**_____.

그가 Compean의 사진을 보았을 때, 그는 바로 흥미를 느꼈습니다.

31. When Kuo saw the black ash on Compean's legs, it **r**_____ him of a recent forest fire.

Kuo가 Compean의 다리에 있는 검은 재를 보았을 때, 그것은 그에게 최근의 산불을 떠올리게 했습니다.

32. This **h**_____ him to infer Compean's **a**_____ location.

이것은 그가 Compean의 거의 정확한 위치를 추론하도록 도와주었습니다.

33. Kuo was very **f**_____ with the area because he had **t**_____ the fire before and had **c**_____ the features of the area in satellite images.

Kuo는 이 지역이 매우 익숙했는데 왜냐하면 그가 이전에 그 화재를 추적했었고 위성 이미지에서 그 지역의 특징을 확인했었기 때문입니다.

34. From the plants and trees in Compean's picture, Kuo **g**_____ that it must be the south side of the mountain.

Compean의 사진 속 식물과 나무들로부터, Kuo는 그곳이 산의 남쪽 부분이 틀림없다고 추측했습니다.

35. The north side **d**_____ **n**_____ **h**_____ any green valleys like those in the picture.

북쪽 부분에는 사진 속의 것들과 같은 푸른 골짜기들이 없습니다.

04

36. As a final step, Kuo **c**_____ the view in Compean's picture with **m**_____ satellite images.

마지막 단계로, Kuo는 Compean의 사진 속 풍경을 더 많은 위성 이미지와 비교했습니다.

37. Finally, he found a **m**_____ and **p**_____ the police with Compean's **p**_____ location.

마침내 그는 일치하는 곳을 찾았고 경찰에게 Compean이 있을 법한 위치를 제공했습니다.

38. The police sent a rescue helicopter to the location and found Compean **l**_____ than a mile away from the area indicated by Kuo.

경찰은 그 위치에 구조 헬리콥터를 보냈고 Kuo에 의해 가리켜진 지역으로부터 1마일도 떨어지지 않은 곳에서 Compean을 발견했습니다.

39. Thanks to Kuo's **u**_____ skills, Compean was rescued **u**_____.

Kuo의 이례적인 기술로, Compean은 다치지 않은 채로 구조되었습니다.

40. He later **t**_____ Kuo on a video call.

그는 나중에 Kuo에게 영상 통화로 감사를 전했습니다.

41. The local police are now **r**_____ hikers who hike **a**_____ to **i**_____ others of their planned route and to always **b**_____ a paper map.

이제 지역 경찰은 혼자 등산하는 등산객들에게 다른 사람들에게 그들의 계획된 경로를 알리고 언제나 종이 지도를 가져오라고 상기하고 있습니다.

42. This is Marissa Reynolds from LA.

지금까지 LA에서 Marissa Reynolds입니다.

그는 도움을 청하기 위해 소리를 지르기도 하고 심지어 비행기나 헬리콥터가 지나갈 경우를 대비하여 땅에 SOS를 쓰기도 했습니다.

10. He _____ _____ _____ _____ for only about two hours, but night was _____.
그는 약 2시간 정도만 등산할 계획이었으나, 밤이 찾아오고 있었습니다.

11. It started getting very windy and the temperature was dropping _____.
강한 바람이 불기 시작했고 기온은 급격히 떨어지고 있었습니다.

02

12. Compean was _____ in the forest, so his cell phone couldn't get a signal.

Compean은 숲속 깊은 곳에 있었고, 그래서 그의 휴대폰은 신호를 받지 못했습니다.

13. To make matters worse, its battery was _____ dead.

설상가상으로, 그것의 배터리는 거의 방전되었습니다.

14. He climbed up to a higher spot and _____ a weak signal.

그는 더 높은 곳으로 올라갔고 약한 신호를 찾았습니다.

15. He used the last of his battery _____ _____ a text message to his friend.

그는 그의 마지막 (남은) 배터리를 그의 친구에게 문자 메시지를 보내기 위해 사용했습니다.

16. In the message, he said _____ he _____ _____ and _____ help.

메시지에, 그는 그가 길을 잃었으며 도움이 필요하다고 말했습니다.

17. He also sent a picture to show his surroundings.

그는 또한 그의 주변 환경을 보여 주기 위해 사진 한 장을 보냈습니다.

18. Compean's friend shared the message and the picture with the local police.

Compean의 친구는 그 메시지와 사진을 지역 경찰에게 공유했습니다.

19. When the local police _____ _____ _____ the _____ hiker, they _____ sent a rescue team.

지역 경찰이 실종된 등산객에 대해 보고받았을 때, 그들은 즉시 구조팀을 보냈습니다.

20. _____ _____ through the night, they still didn't have any idea _____ _____ _____.

밤샘 수색에도 불구하고, 그들은 여전히 Compean이 어디에 있는지 어떤 짐작도 하지 못했습니다.

21. In the picture, his legs _____ _____ _____ the edge of a canyon with rocks and green trees.

사진에서, 그의 다리는 바위와 푸른 나무들이 있는 협곡의 가장자리에 걸쳐 있었습니다.

22. His legs _____ _____ in black ash from the recent forest fires.

그의 다리는 최근의 산불로 생긴 검은 재로 덮여 있었습니다.

23. However, the picture didn't help the police _____ _____ the quality was poor _____ _____ the weak signal, and his location settings _____ _____ _____.

그러나, 그 사진은 경찰에게 크게 도움이 되지 못했는데 왜냐하면 약한 신호로 인해 화질이 나빴고, 그의 위치 설정도 꺼져 있었기 때문이었습니다.

03 | 24. As Compean _____ _____ _____ one night in difficult conditions, the police worried _____ _____ _____ a second night.

Compean은 이미 힘든 환경에서 하룻밤을 보냈기 때문에, 경찰은 그가 두 번째 밤을 보낼 것에 대해 걱정했습니다.

25. So they decided _____ _____ social media to find out ____ anyone could find clues in the picture.

그래서 그들은 누군가 사진 속에서 단서를 찾을 수 있는지 알아보기 위해 소셜 미디어를 사용하기로 결정했습니다.

26. They posted the picture and _____ ____ anyone recognized the scenery.

그들은 그 사진을 게시하고 누군가 그 풍경을 알아차릴 수 있는지 물었습니다.

27. The picture _____ by the police _____ _____ by a Californian _____ Ben Kuo.

경찰에 의해 공유된 그 사진은 Ben Kuo라는 이름의 캘리포니아 사람에게 목격되었습니다.

28. One of his _____ ____ _____ satellite images ____ _____ forest fires and _____ people of potential dangers.

그의 취미 중 하나는 산불을 추적하기 위해 위성 이미지를 조사하는 것과 사람들에게 잠재적 위험에 대해 알리는 것입니다.

29. He also enjoys _____ _____ _____ _____ _____ and _____ _____ _____ _____ _____.

그는 또한 어디서 사진이 찍혔는지와 영화가 어디서 촬영되었는지를 알아내는 것을 즐겼습니다.

30. When he saw the picture of Compean, he was _____ _____.

그가 Compean의 사진을 보았을 때, 그는 바로 흥미를 느꼈습니다.

31. When Kuo saw the black ash on Compean's legs, ____ reminded him of a recent forest fire.

Kuo가 Compean의 다리에 있는 검은 재를 보았을 때, 그것은 그에게 최근의 산불을 떠올리게 했습니다.

32. This helped him _____ _____ Compean's _____ location.

이것은 그가 Compean의 거의 정확한 위치를 추론하도록 도와주었습니다.

33. Kuo was very familiar with the area _____ he _____ _____ the fire before and _____ _____ the features of the area in satellite images.

Kuo는 이 지역이 매우 익숙했는데 왜냐하면 그가 이전에 그 화재를 추적했었고 위성 이미지에서 그 지역의 특징을 확인했었기 때문입니다.

34. From the plants and trees in Compean's picture, Kuo guessed _____ it _____ be the south side of the mountain.

Compean의 사진 속 식물과 나무들로부터, Kuo는 그곳이 산의 남쪽 부분이 틀림없다고 추측했습니다.

35. The north side does not have any green valleys like _____ in the picture.

북쪽 부분에는 사진 속의 것들과 같은 푸른 골짜기들이 없습니다.

04

36. As a final step, Kuo _____ the view in Compean's picture with more satellite images.

마지막 단계로, Kuo는 Compean의 사진 속 풍경을 더 많은 위성 이미지와 비교했습니다.

37. Finally, he found a match and _____ the police with Compean's probable location.

마침내 그는 일치하는 곳을 찾았고 경찰에게 Compean이 있을 법한 위치를 제공했습니다.

38. The police sent a rescue helicopter to the location and _____ Compean less than a mile away from the area _____ by Kuo.

경찰은 그 위치에 구조 헬리콥터를 보냈고 Kuo에 의해 가리켜진 지역으로부터 1마일도 떨어지지 않은 곳에서 Compean을 발견했습니다.

39. Thanks to Kuo's unusual skills, Compean _____ _____ _____.

Kuo의 이례적인 기술로, Compean은 다치지 않은 채로 구조되었습니다.

40. He later thanked Kuo on a video call.

그는 나중에 Kuo에게 영상 통화로 감사를 전했습니다.

41. The local police are now _____ hikers _____ _____ alone ____ _____ others of their planned route and ____ _____ _____ a paper map.

이제 지역 경찰은 혼자 등산하는 등산객들에게 다른 사람들에게 그들의 계획된 경로를 알리고 언제나 종이 지도를 가져오라고 상기하고 있습니다.

42. This is Marissa Reynolds from LA.

지금까지 LA에서 Marissa Reynolds입니다.

43. Now back to the studio.

이제 다시 스튜디오로 연결합니다.

01 다음 글의 주제로 가장 적절한 것은?

A missing hiker named Rene Compean was found safe on Tuesday by a rescue team in Angeles National Forest. It turns out that a photo played a key role in saving his life. Let's go over to Marissa Reynolds for more details on this story. Thank you, Thomas. I'm standing here at the entrance of Angeles National Forest. As you just heard, Rene Compean was recently rescued from this forest. Compean, an experienced hiker who knew the area well, went on a hike alone on April 12. However, a recent forest fire had destroyed some signs, which caused him to take a wrong turn and get lost. He tried shouting for help and even wrote SOS on the ground in case a plane or helicopter passed by. He had planned to hike for only about two hours, but night was coming. It started getting very windy and the temperature was dropping quickly.

① Importance of safety measures in hiking
② Effects of weather on hiking trips
③ Role of technology in finding lost people
④ Reasons for learning about forest fires
⑤ Challenges of hiking in forest areas

15 다음 글의 주제로 가장 적절한 것은?

Compean was deep in the forest, so his cell phone couldn't get a signal. To make matters worse, its battery was nearly dead. He climbed up to a higher spot and found a weak signal. He used the last of his battery to send a text message to his friend. In the message, he said that he was lost and needed help. He also sent a picture to show his surroundings. Compean's friend shared the message and the picture with the local police. When the local police were informed of the missing hiker, they immediately sent a rescue team. Despite searching through the night, they still didn't have any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees. His legs were covered in black ash from the recent forest fires. However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

① The challenges of finding a lost person in nature
② The effects of forest fires on hiking trails
③ The importance of sending photos when lost
④ The role of friends in emergency situations
⑤ The limitations of using poor-quality images for rescue operations

Compean was deep in the forest, so his cell phone couldn't get a signal. To make matters worse, its battery was nearly dead. He climbed up to a higher spot and found a weak signal. He used the last of his battery to send a text message to his friend. In the message, he said that he was lost and needed help. He also sent a picture to _____. Compean's friend shared the message and the picture with the local police. When the local police were informed of the missing hiker, they immediately sent a rescue team. Despite searching through the night, they still didn't have any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees. His legs were covered in black ash from the recent forest fires. However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

① identify his surroundings
② highlight his footsteps
③ confirm his identity
④ track his phone
⑤ signal for an SOS

28 글의 흐름으로 보아, 주어진 문장이 들어가기에 가장 적절한 곳을 고르시오.

He also sent a picture to show his surroundings.

Compean was deep in the forest, so his cell phone couldn't get a signal. To make matters worse, its battery was nearly dead. He climbed up to a higher spot and found a weak signal. He used the last of his battery to send a text message to his friend. ① In the message, he said that he was lost and needed help. ② Compean's friend shared the message and the picture with the local police. ③ When the local police were informed of the missing hiker, they immediately sent a rescue team. ④ Despite searching through the night, they still didn't have any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees. His legs were covered in black ash from the recent forest fires. ⑤ However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

29 다음 글의 주제로 가장 적절한 것은?

As Compean had already spent one night in difficult conditions, the police worried about his spending a second night. So they decided to use social media to find out if anyone could find clues in the picture. They posted the picture and asked if anyone recognized the scenery. The picture shared by the police was seen by a Californian named Ben Kuo. One of his hobbies is examining satellite images to track forest fires and informing people of potential dangers. He also enjoys determining where pictures were taken and where movies were filmed. When he saw the picture of Compean, he was immediately interested. When Kuo saw the black ash on Compean's legs, it reminded him of a recent forest fire. This helped him to infer Compean's approximate location. Kuo was very familiar with the area because he had tracked the fire before and had checked the features of the area in satellite images. From the plants and trees in Compean's picture, Kuo guessed that it must be the south side of the mountain. The north side does not have any green valleys like those in the picture.

① The role of hobbies in finding lost people
② How social media enabled the rescue of a missing person
③ The use of satellites to help rescue efforts
④ The significance of recognizing landscape features
⑤ The dangers of spending a night outdoors

43 다음 글의 주제로 가장 적절한 것은?

As a final step, Kuo compared the view in Compean's picture with more satellite images. Finally, he found a match and provided the police with Compean's probable location. The police sent a rescue helicopter to the location and found Compean less than a mile away from the area indicated by Kuo. Thanks to Kuo's unusual skills, Compean was rescued unharmed. He later thanked Kuo on a video call. The local police are now reminding hikers who hike alone to inform others of their planned route and to always bring a paper map. This is Marissa Reynolds from LA. Now back to the studio.

① Importance of informing others when going on a hike alone
② Benefits of technology in outdoor rescues
③ Skills needed for successful outdoor adventures
④ Reasons to avoid risky outdoor activities alone
⑤ Challenges faced in wilderness expeditions

A missing hiker named Rene Compean was found safe on Tuesday by a rescue team in Angeles National Forest. It turns out that a photo played a key role in saving his life. Let's go over to Marissa Reynolds for more details on this story. Thank you, Thomas. I'm standing here at the entrance of Angeles National Forest. As you just heard, Rene Compean was recently rescued from this forest. Compean, an experienced hiker who knew the area well, went on a hike alone on April 12. However, a recent forest fire had destroyed some signs, which caused him to take a wrong turn and get lost. He tried shouting for help and even wrote SOS on the ground in case a plane or helicopter passed by. He had planned to hike for only about two hours, but night was coming. It started getting very windy and the temperature was dropping quickly.

① The causes of getting lost in the forest
② The importance of recognizing forest trails

③ The role of photos in locating lost people
④ Techniques of surviving in cold environments
⑤ The effects of forest fires on local wildlife

58 다음 글의 주제로 가장 적절한 것은?

Compean was deep in the forest, so his cell phone couldn't get a signal. To make matters worse, its battery was nearly dead. He climbed up to a higher spot and found a weak signal. He used the last of his battery to send a text message to his friend. In the message, he said that he was lost and needed help. He also sent a picture to show his surroundings. Compean's friend shared the message and the picture with the local police. When the local police were informed of the missing hiker, they immediately sent a rescue team. Despite searching through the night, they still didn't have any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees. His legs were covered in black ash from the recent forest fires. However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

① Problems with weak mobile signals in the wild
② The importance of timely communication in emergencies
③ Difficulties in finding a lost hiker in the forest
④ How to call for help when lost
⑤ Challenges in outdoor adventures without technology

59 다음 글의 주제로 가장 적절한 것은?

As Compean had already spent one night in difficult conditions, the police worried about his spending a second night. So they decided to use social media to find out if anyone could find clues in the picture. They posted the picture and asked if anyone recognized the scenery. The picture shared by the police was seen by a Californian named Ben Kuo. One of his hobbies is examining satellite images to track forest fires and informing people of potential dangers. He also enjoys determining where pictures were taken and where movies were filmed. When he saw the picture of Compean, he was immediately interested. When Kuo saw the black ash on Compean's legs, it reminded him of a recent forest fire. This helped him to infer Compean's approximate location. Kuo was very familiar with the area because he had tracked the fire before and had checked the features of the area in satellite images. From the plants and trees in Compean's picture, Kuo guessed that it must be the south side of the mountain. The north side does not have any green valleys like those in the picture.

① The importance of satellite photo analysis for identifying filming locations
② The role of social media in finding lost people in nature
③ The use of hobbies for identifying unfamiliar places
④ The benefits of forest management for fire prevention
⑤ The challenges faced by police in mountainous rescues

A missing hiker named Rene Compean was found safe on Tuesday by a rescue team in Angeles National Forest. It turns out that a photo played a key role in saving his life. Let's go over to Marissa Reynolds for more details on this story. Thank you, Thomas. I'm standing here at the entrance of Angeles National Forest. As you just heard, Rene Compean was recently rescued from this forest. Compean, an experienced hiker who knew the area well, went on a hike alone on April 12. However, a recent forest fire had destroyed some signs, which caused him to take a wrong turn and get lost. He tried shouting for help and even wrote SOS on the ground in case a plane or helicopter passed by. He had planned to hike for only about two hours, but night was coming. It started getting very windy and the temperature was dropping quickly.

① Pictures can sometimes save lives in emergency situations.
② Always hike with a companion to avoid getting lost.
③ A recent forest fire created additional safety challenges for tourists.
④ Rene Compean was familiar with the forest despite being lost.
⑤ Nature can be unpredictable, so hikers should be extra cautious.

66 다음 중 이 글에 대한 요지로 가장 적절한 것은?

Compean was deep in the forest, so his cell phone couldn't get a signal. To make matters worse, its battery was nearly dead. He climbed up to a higher spot and found a weak signal. He used the last of his battery to send a text message to his friend. In the message, he said that he was lost and needed help. He also sent a picture to show his surroundings. Compean's friend shared the message and the picture with the local police. When the local police were informed of the missing hiker, they immediately sent a rescue team. Despite searching through the night, they still didn't have

any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees. His legs were covered in black ash from the recent forest fires. However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

① Sending a rescue team promptly can assist in saving lives from critical situations.
② Poor photo quality can make it difficult for rescuers to find missing persons.
③ Having a phone with a strong battery is crucial for emergencies in remote areas.
④ Communication with friends is more effective than relying on police in rescue operations.
⑤ Hikers should always leave their location settings on to facilitate rescues.

5 실전 문제 ① — ② — ③

79 다음 중 빈칸에 가장 알맞은 것을 고르시오.

As Compean had already spent one night in difficult conditions, the police worried about his spending a second night. So they decided to use social media to find out if anyone could find clues in the picture. They posted the picture and asked if anyone recognized the scenery. The picture shared by the police was seen by a Californian named Ben Kuo. One of his hobbies is examining satellite images to track forest fires and informing people of potential dangers. He also enjoys determining where pictures were taken and where movies were filmed. When he saw the picture of Compean, he was immediately interested. When Kuo saw the black ash on Compean's legs, it reminded him of a recent forest fire. This helped him to infer Compean's approximate location. _____ Kuo was very familiar with the area because he had tracked the fire before and had checked the features of the area in satellite images.

① Consequently, he identified Compean's location quickly and notified authorities.
② Interestingly, the fire's effects vastly enchanted Kuo but did not improve his guesses.
③ Yet, he faced numerous difficulties due to limited technological access from authorities.
④ Nevertheless, he preferred using traditional maps rather than satellite images.
⑤ Conversely, the terrain features misled Kuo, making his search inefficient.

80 다음 중 빈칸에 가장 알맞은 것을 고르시오.

As a final step, Kuo compared the view in Compean's picture with more satellite images. Finally, he found a match and provided the police with Compean's probable location. The police sent a rescue helicopter to the location and found Compean less than a mile away from the area indicated by Kuo. _____ He later thanked Kuo on a video call. The local police are now reminding hikers who hike alone to inform others of their planned route and to always bring a paper map. This is Marissa Reynolds from LA. Now back to the studio.

① Meanwhile, the rescue took significantly longer than expected.
② Nevertheless, Compean's location remained difficult to access for the rescuers.
③ Similarly, hikers should use technology to aid their safety.
④ Thanks to Kuo's unique abilities, Compean was saved without injury.
⑤ Surprisingly, Compean did not require any medical assistance.

A missing hiker named Rene Compean was found safe on Tuesday by a rescue team in Angeles National Forest. It turns out that a photo played a key role in saving his life. Let's go over to Marissa Reynolds for more details on this story. Thank you, Thomas. I'm standing here at the entrance of Angeles National Forest. As you just heard, Rene Compean was recently rescued from this forest. Compean, an experienced hiker who knew the area well, went on a hike alone on April 12. However, a recent forest fire had destroyed some signs, which caused him to take a wrong turn and get lost. He tried shouting for help and even wrote SOS on the ground in case a plane or helicopter passed by. He had planned to hike for only about two hours, but night was coming. It started getting very windy and the temperature was dropping quickly.

Compean was deep in the forest, so his cell phone couldn't get a signal. To make matters worse, its battery was nearly dead. He climbed up to a higher spot and found a weak signal. He used the last of his battery to send a text message to his friend. In the message, he said that he was lost and needed help. He also sent a picture to show his surroundings. Compean's friend shared the message and the picture with the local police. When the local police were informed of the missing hiker, they immediately sent a rescue team. Despite searching through the night, they still didn't have any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees. His legs were covered in black ash from the recent forest fires. However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

89 밑줄 친 a photo played a key role in saving his life가 다음 글에서 의미하는 바로 가장 적절한 것은?

A missing hiker named Rene Compean was found safe on Tuesday by a rescue team in Angeles National Forest. It turns out that **a photo played a key role in saving his life**. Let's go over to Marissa Reynolds for more details on this story. Thank you, Thomas. I'm standing here at the entrance of Angeles National Forest. As you just heard, Rene Compean was recently rescued from this forest. Compean, an experienced hiker who knew the area well, went on a hike alone on April 12. However, a recent forest fire had destroyed some signs, which caused him to take a wrong turn and get lost. He tried shouting for help and even wrote SOS on the ground in case a plane or helicopter passed by. He had planned to hike for only about two hours, but night was coming. It started getting very windy and the temperature was dropping quickly.

① A map he carried prevented him from getting lost
② A rescue team found clues in a photo to locate him
③ He sent his photo directly to the rescue team for help
④ A video recording provided evidence of his location
⑤ A drawing he made guided him back to safety

90 밑줄 친 his legs were hanging over the edge of a canyon가 다음 글에서 의미하는 바로 가장 적절한 것은?

Compean was deep in the forest, so his cell phone couldn't get a signal. To make matters worse, its battery was nearly dead. He climbed up to a higher spot and found a weak signal. He used the last of his battery to send a text message to his friend. In the message, he said that he was lost and needed help. He also sent a picture to show his surroundings. Compean's friend shared the message and the picture with the local police. When the local police were informed of the missing hiker, they immediately sent a rescue team. Despite searching through the night, they still didn't have any idea where Compean was. In the picture, **his legs were hanging over the edge of a canyon** with rocks and green trees. His legs were covered in black ash from the recent forest fires. However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

① His precarious position at the canyon's edge
② His relaxed posture during the hike
③ His interest in the canyon's natural beauty
④ His attempt to descend into the canyon
⑤ His decision to rest at the canyon

91 밑줄 친 determining where pictures were taken and where movies were filmed가 다음 글에서 의미하는 바로 가장 적절한 것은?

As Compean had already spent one night in difficult conditions, the police worried about his spending a second night. So they decided to use social media to find out if anyone could find clues in the picture. They posted the picture and asked if anyone recognized the scenery. The picture shared by the police was seen by a Californian named Ben Kuo. One of his hobbies is examining satellite images to track forest fires and informing people of potential dangers. He also enjoys **determining where pictures were taken and where movies were filmed**. When Kuo saw the black ash on Compean's legs, it reminded him of a recent forest fire. This helped him to infer Compean's approximate location. Kuo was very familiar with the area because he had tracked the fire before and had checked the features of the area in satellite images. From the plants and trees in Compean's picture, Kuo guessed that it must be the south side of the mountain. The north side does not have any green valleys like those in the picture.

① Analyzing historical photographs for educational purposes
② Collaborating with filmmakers to choose optimal shooting spots
③ Photographing movie sets for documentation
④ Using professional skills to map out precise filming locations
⑤ Identifying the locations of photographs and film settings for personal interest

92 밑줄 친 Kuo's unusual skills가 다음 글에서 의미하는 바로 가장 적절한 것은?

As a final step, Kuo compared the view in Compean's picture with more satellite images. Finally, he found a match and provided the police with Compean's probable location. The police sent a rescue helicopter to the location and found Compean less than a mile away from the area indicated by Kuo. Thanks to **Kuo's unusual skills**, Compean was rescued unharmed. He later thanked Kuo on a video call. The local police are now reminding hikers who hike alone to inform others of their planned route and to always bring a paper map. This is Marissa Reynolds from LA. Now back to the studio.

① Skills in map-making and route planning for hikers
② Talent for organizing community safety workshops
③ Physical endurance to participate in rescue missions
④ Exceptional ability to analyze and match satellite images
⑤ Capacity to communicate effectively with the police

A missing hiker named Rene Compean (1)[**found** / **was found**] safe on Tuesday by a rescue team in Angeles National Forest. It turns out that a photo played a key role in saving his life. Let's go over to Marissa Reynolds for more details on this story. Thank you, Thomas. I'm standing here at the entrance of Angeles National Forest. As you just heard, Rene Compean was recently rescued from this forest. Compean, an experienced hiker (2) [**which** / **who**] knew the area well, went on a hike alone on April 12. However, a recent forest fire had destroyed some signs, (3) [**which** / **that**] caused him to take a wrong turn and get lost. He tried shouting for help and even wrote SOS on the ground in case a plane or helicopter passed by. He had planned to hike for only about two hours, but night was coming. It started getting very windy and the temperature was dropping quickly.

Compean was deep in the forest, so his cell phone couldn't get a signal. To make matters worse, (1) [**its / their**] battery was nearly dead. He climbed up to a higher spot and found a weak signal. He used the last of his battery to send a text message to his friend. In the message, he said that he was lost and needed help. He also sent a picture to show his surroundings. Compean's friend shared the message and the picture with the local police. When the local police were (2) [**informing / informed**] of the missing hiker, they immediately sent a rescue team. (3)[**Despite / Despite of**] searching through the night, they still didn't have any idea where Compean was. In the picture, his legs were hanging over the edge of a canyon with rocks and green trees. His legs were covered in black ash from the recent forest fires. However, the picture didn't help the police much because the quality was poor due to the weak signal, and his location settings were turned off.

As Compean (1) [**has already spent / had already spent**] one night in difficult conditions, the police worried about his spending a second night. So they decided to use social media to find out (2)[**that / if**] anyone could find clues in the picture. They posted the picture and asked if anyone recognized the scenery. The picture shared by the police was seen by a Californian named Ben Kuo. One of his hobbies (3)[**is / are**] examining satellite images to track forest fires and informing people of potential dangers. He also enjoys determining where pictures were taken and where movies were filmed. When he saw the picture of Compean, he was immediately interested. When Kuo saw the black ash on Compean's legs, it reminded him of a recent forest fire. This helped him to infer Compean's approximate location. Kuo was very familiar with the area because he had tracked the fire before and had checked the features of the area in satellite images. From the plants and trees in Compean's picture, Kuo guessed that it must be the south side of the mountain. The north side does not have any green valleys like (4)[**that / those**] in the picture.

As a final step, Kuo compared the view in Compean's picture with more satellite images. Finally, he found a match and provided the police with Compean's probable location. The police sent a rescue helicopter to the location and found Compean less than a mile away from the area (1)[**indicating / indicated**] by Kuo. Thanks to Kuo's unusual skills, Compean was rescued unharmed. He later thanked Kuo on a video call. The local police are now reminding hikers who (2) [**hike / hikes**] alone to inform others (3)[**of / to**] their planned route and to always bring a paper map. This is Marissa Reynolds from LA. Now back to the studio.
